

Covid-19, Covid-19,  
The virus swept the nation and changed our routine.  
Covid-19, Covid-19  
A disease that made the world scream find a vaccine.  
With the birth of social-distancing, new procedures came to play.  
All plans were lost, and at home, we had to stay.  
Masks became a fashion, with dissension growing strong.  
It was hard to tell the difference when right became wrong.  
Schools began to close, and jobs were quickly lost,  
Our nation was losing at a very high cost.  
Measures built to help left society at a low.  
Containment was the plan; still, the spread refused to slow.  
Covid-19, Covid-19,  
The virus swept the nation and changed our routine.  
Covid-19, Covid-19  
A disease that made the world scream find a vaccine.  
In 2021 pharmaceutical promised hope,  
for conquering the virus and its challenging slope.  
Two shots, in different spots, could this really be an answer?  
With experiences and memories, it's time for us to chance er!
