

2020 was going to be my year!
As the spring months came near,
There seemed to be a growing fear.
With numbers rising from ear to ear
The virus soon became severe.
It seemed our world would soon disappear!
With trust and love in God to me it is clear
For all our prayers I know He will hear
And come to wipe away each tear
This virus came and struck us like a spear
But our faith in God's love is still here!
With hope, faith and love we'll put 2020 in the rear
And look ahead to a promising New Year!
